Subject: Navistar Integrated Supplier Quality Requirements (NISQR) Document, Revision I Announcement.

To: Navistar Inc. Suppliers

Navistar Inc. has updated the Navistar Integrated Supplier Quality Requirements (NISQR) document to revision I, effective October 15, 2020. Sourcing of SPG's (Special Product Groups) will go through a more robust pre-selection process and require increased recertification and requalification of quality systems and process capability on key characteristics after award of business, and on current serial production suppliers. Suppliers are required to immediately implement the Rev I change.

The NISQR details the requirements suppliers are expected to adhere to at all levels of their organization, to support Navistar product quality and customer satisfaction. Suppliers are encouraged to read this document and ask questions if the content is not understood.
